alenaduhnitch

I have been working with graphics and web for over 10 years. **My basic skills are connected with UX/UI design, front-end and CMS-implementation.**

My favourite job is my lifestyle. I enjoy creating interactive, **crossbrowser, crossplatform, adaptive, SEO-friendly** websites and apps with validate coding and user-centered interfaces. As I think, everybody who is doing his part well, makes the world a bit better.

### WORK EXPERIENCE

November 2015 - Present **WiserBrandCompany** - UI/UX Designer/Frontend dev

- UX/UI Design and frontend development of a big business portal HireRush (<https://www.hirerush.com>), including dashboard, profile plans, different user roles and flow, one-page and multi-steps forms, reviews, phone menu, profile customization, inbox, chat, coupons, notifications, mobile version etc.

- Development and support several versions of a corporate Wiserbrand portal (<https://wiserbrand.com>).

- UX, frontend, optimization tasks for a big e-commerce project (<https://www.1stopbedrooms.com>).

- Design and development of different landing pages, banners, brand production.

2015 **Itera Research Company** - Frontend developer

- Websites and landings front-end development (<https://www.itera-research.com>). Including Wordpress websites and Drupal social community.

2004 - 2015 **Publishing house Metalika** - Designer/Frontend dev

- Developed and maintained corporate web portals and clients websites.

- Planned and managed websites structure and architecture, designed flowcharts, templates of navigation and controls for sites. Documented website requirements.

- Designed websites, interfaces and individual elements for web-resources.

- Realized animation, banners and presentations.

- Developed corporate CMS Divolta, based on Symfony Framework. Successfully developed clients websites with Divolta CMS.

- Designed advertising poligraphic materials, maked prepress. Created outdoor-advertising (transport, billboards, signs), POS, exclusive business souvenirs and accessories.

2004 - Present **Freelance** - Designer/Frontend developer
